### Banks Will Lose Pickup.

Jefferson City, July 19.—Governor Hadley and State Auditor Gordon have determined to break up an old custom of permitting the board of managers of the various state institutions to draw large sums of money from their biennial appropriations in lump sums. Hereafter they will all be held down to what sum is required for each calendar month, and for no quarter, embracing three months, will they be permitted to draw in excess of one-eighth of the total sum appropriated, or exceeding half of the appropriation for any one year, in cases where new buildings are being erected.

It has been suspected all along that local banks are behind the move to draw more money than was required for monthly expenses, and as a consequence it was determined to break up the custom. Today the governor and auditor held conferences with the heads of the institutions or representatives from the board of managers and informed them of the steps taken.

### Two Shot

Ralph Herndon was painfully hurt Wednesday evening at the Herndon-Farmer charivari near Herndon by being shot. Dr. John R. Hall was sent for to look after his injuries. We learn the wound is not dangerous, and was caused accidentally by some paper wad being shot into one of his legs at close range.

Ernest Hammer, while handling a revolver carelessly at the electric light plant Wednesday night had his left hand badly hurt by the accidental discharge of the revolver. He may lose one of his fingers.

### Too Late for This Week

A great many county news letters were received yesterday and we possibly couldn't handle them all with the heavy advertising and are sorry to omit them. We hope our correspondents will try to have their letters in by Tuesday evening or Wednesday morning when possible although Thursday noon is alright at times.

M. L. Winn, the enterprising gardener, left us three large heads of his fine cabbage Monday morning. The three heads weighed 29 pounds—the largest 10 lbs. This is considerably less than Hardy Green's that we weighed on the same scale and found to weigh 17 lbs. last week. If Mr. Winn wants any blue ribbons we would advise him to get hold of some Green cabbage and he'll be sure to win.

A pair of twins arrived at Bud Everth's, col., near Napton, last week. Another pair 14 months ago makes 4 children in 14 months. The colored population of Napton certainly isn't decreasing very rapidly. What will Taft say?

### GENIUS WITHOUT BEAUTY.

Mme. de Stael was about 32 years old when Goethe wrote that she was neither imposing nor pleasing, but had "an eager, almost ravenous expression in the eyes, and something masculine and assured in her countenance. Her lips were dry and arid, her movements and gestures imperious, her voice was sonorous, and her utterance rapid and energetic." She gave him the idea, he adds, "of creative genius taking the form of a woman destitute of beauty." It is said that she loved nothing better than to place herself beside Mme. Recamier, thinking that this beauty made the best foil to her own brilliant wit and expressive countenance.

### NO ONE TO RUN IT.

The agent had dwelt eloquently and at some length upon the superior merits of the heater he was trying to introduce into the homes of Saymouth, but the woman at the door had looked thoughtfully into the distance, away from his compelling eyes, as she listened.

"Why," said the agent, at last, "a child could run that heater."

"We have no children," said the woman, conclusively, as she shut the door and locked it.—Youth's Companion.

### MISPLACED PHILANTHROPY.

"I am here," said the reformer, "to extend a helping hand to suffering humanity."

"Don't try it," replied Broncho Bob; "not in Crimson Gulch. Three-fingered Sam got into all kinds of trouble for trying to extend a helping hand to Piete Pete under the table while he was sufferin' in a poker game."—Exchange.
